
Title: THE SECOND AGE

Author:

THE SECOND AGE OF
DARKNESS

After Mondain's passing,
Minax the enchantress
brought forth terrors to
menace the populace. She
had been apprentice to
Mondain. Perhaps more
than that, if the moaning
and wailing that echoed
through the halls outside
their shared bedchamber
bore any meaning. She
established a reign of
death and destruction, her
magic fueled by the
strength of her passion.
Again it was only the
return of the Avatar
that put an end to the
oppression. Minax was
vanquished, as Mondain
before her.
